ABOUT ME

A recent graduate with a Bachelor of Computer Science, specializing in Maritime Informatics. Eager to leverage academic knowledge and technical skills in a professional setting. I aim to continuously improve my practical abilities, while also building a strong attitude towards learning and growing my expertise. My goal is to gain more knowledge and hands-on experience in the field.

EXPERIENCE

PKT Logistics   December 2023 - Present
Programmer

I joined PKT Logistics as a programmer after my internship, focusing on developing internal systems as the front-end developer.

Accomplishments:
- Developed a security portal and e-claim platform.
- Integrated front-end with back-end using Axios.
- Collaborated with cross-functional teams to enhance system efficiency.

PKT Logistics   August 2023 - December 2023
IT Security Intern

I gained hands-on experience in IT security and front-end development during my internship at PKT Logistics. My responsibilities included managing CCTV systems, access controls, and building simple web tools.

- Monitored and checked CCTV cameras to ensure they were working.
- Managed access cards for security control.
- Worked with a team to review security footage
- Learned to use Vue.js and Tailwind CSS for front-end development.

Majlis Agama Islam (Maik)   2018 - 2019
Part-Time Administrative Assistant

Supported the Unit Agihan with data entry, phone call responses, and customer service at the counter.
- Supported the Unit Agihan by performing data entry tasks and maintaining accurate records.
- Handled and responded to phone calls from the public, providing information and assistance.
- Assisted customers at the counter, addressing inquiries and guiding them through necessary processes.
- Managed and organized administrative documents, ensuring smooth daily operations.
- Collaborated with teams to ensure efficient handling of administrative tasks.

Majlis Daerah Tumpat   2017 - 2018
Practical Students

Assisted the OSC department with data entry, document filing, and gained exposure to local government operations.
- Assisted in the OSC one-stop center departments within local government.
- Performed clerical duties such as data entry and document filing.
- Gained hands-on experience by following outside work related to the course.

EDUCATION

Bachelor of Computer Sciene And Maritime Informatic
UNIVERSITI MALAYSIA TERENGGANU | 2019- 2024
- CGPA: 3.3
- Achievement : Dean List in sem 2 , 3 and 4.
- Course: Object-Oriented Programming, Cyber Security , Networking, Database, System Analysis And Design, Iot Computing, Web-Based Application Development, Intelligence System, Software Project Management.
- Final Year Project: Misz Home Appointment System.

Diploma Electric & Electronic
POLITEKNIK IBRAHIM SULTAN | 2015-2018
- HPNM : 2.74
- Course: Cmos Integrated Circuit Design, Circuit Analysis, Electrical Machine, Power Electronics, Computer Networking Fundamentals, Embedded System Application, Interactive Multimedia Applications, Plc And Automation, Electronic Circuits, Electronic Equipment Repair, Electronic Computer Aided Design, Power System, Fundamental Programming, Semiconductor, Digital Electronics, Electrical Circuits, Electrical Technology, Electrical Wiring.

SKILL

PROGRAMMING LANGUAGE

- HTML CSS
- Tailwind
- Vue JS
- PHP
- Java
- Phpmyadmin
- Phyton
- C++
- C

SOFT SKILL

- TeamWork
- Time Management
- Critical Thinking
- Problem Solving

COMPUTER SKILL

- Microsoft Word
- Adobe Photoshop
- Adove Premier Pro
- Canva
- Cisco Packet Tracer
- Github
- Backup / Install OS
- Computer Troubleshooting
- Computer Maintenance
- Computer Assembly
- Network Fundamental
